WELCOME TO

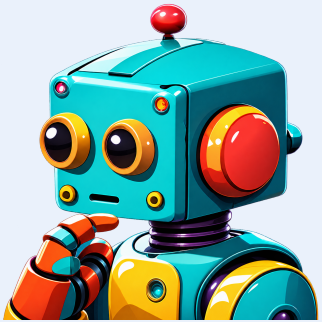

UncertaiNLP 2026

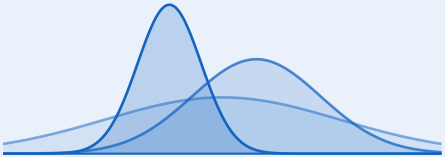

Third Workshop on Uncertainty-Aware NLP

Thursday, 29 October 2026

EMNLP 2026 · Budapest, Hungary

uncertainlp.github.io/2026

EMNLP2026 BUDAPEST

Organizers

Wilker Aziz

University of Amsterdam

Jonathan Berant

Tel Aviv University
Google DeepMind

Bryan Eikema

University of Amsterdam

Marie-Catherine de Marneffe

UCLouvain
FNRS

Barbara Plank

LMU Munich
IT University of Copenhagen

Artem Shelmanov

MBZUAI

Swabha Swayamdipta

USC Viterbi CS

Jörg Tiedemann

University of Helsinki

Artem Vazhentsev

MBZUAI

Raúl Vázquez

University of Helsinki

Chrysoula Zerva

Instituto de Telecomunicações

Evgenia Ilia

Zihao Zheng
PDD Holdings, CN
Plawan Kumar Rath
Meta, US
Siming Zhao
Google, US
Krishna Aswani
Amazon, US

Submission policy

Bring everyone at EMNLP working on uncertainty into one room.

Direct archival

Original papers reviewed by the workshop program committee and published in the proceedings if accepted.

Direct non-archival

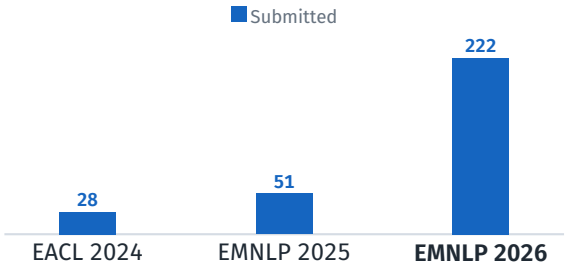

The same review process, with presentation and feedback without publication in the workshop proceedings.

ARR commitments

Use existing ACL Rolling Review (ARR) reviews, including for relevant papers accepted to EMNLP main or Findings.

UncertaiNLP in numbers

Edition	Venue	Submitted Papers	Submitted Authors	Attendees
1st	EACL 2024	28	97	≈50
2nd	EMNLP 2025	51	159	≈80
3rd	**EMNLP 2026**	**222**	**585**	–

4.4×

more submissions than in 2025

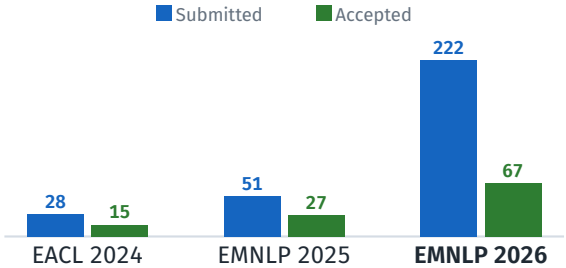

Reciprocal reviewing policy

Each **direct submission** must nominate one or more authors as reviewers through the submission form.

- **Standard workload:** review **3 papers**.
- **Eligibility:** hold a PhD, or have co-authored at least one peer-reviewed paper at ACL, EMNLP, NAACL, EACL, COLING, NeurIPS, ICML, ICLR, AAAI, IJCAI, or a comparable venue.
- **Exemption:** only submissions with no eligible authors are exempt.
- **Missed review deadline:** the associated submission is **desk rejected**. Rare exceptions are considered individually by the workshop chairs.

UncertaiNLP in numbers

		Submitted		Accepted			
Edition	Venue	Papers	Authors	Papers	Authors	Acc. rate	Attendees
1st	EACL 2024	28	97	15	51	53.6%	≈50
2nd	EMNLP 2025	51	159	27	93	52.9%	≈80
3rd	**EMNLP 2026**	**222**	**585**	**67**	**251**	**30.2%**	–

4.4×
more submissions than in 2025

30.2%
acceptance rate, the most selective edition so far

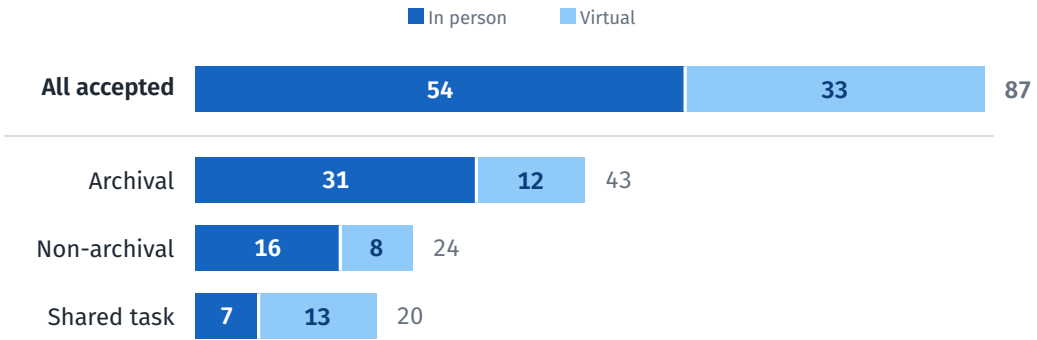

Submissions and decisions

Bar length shows the share of submissions in each group; numbers are paper counts.

Presentation format of accepted papers

Most accepted papers are presented in person: **54 of 87** (62%).

The 87 accepted papers include 20 shared-task papers in addition to the 67 accepted workshop papers.

Keynote speakers

André Martins

Instituto Superior Técnico

09:10–09:50

Dan Roth

Oracle AI
University of Pennsylvania

09:50–10:30

Yingzhen Li

Imperial College London

16:00–16:40

Gintare Karolina Dziugaite

Google DeepMind

16:40–17:20

All times are Budapest local time (CET, UTC+1).

SHROOM-Visions 2026 shared task

Hallucination detection in large vision-language models

The fourth SHROOM shared task, hosted at UncertaiNLP.

27	600+	4

Stella Frank
Vincent Segonne
Artem Shelmanov

“99.9% sure it’s a giraffe.”

helsinki-nlp.github.io/shroom/2026

Spotlight papers 🏆 (1/2)

1. **Calibration Is Not Enough: Evaluating Confidence Estimation Under Language Variations**
   Poster session 1 · Yuxi Xia, Dennis Ulmer, Terra Blevins, Yihong Liu, Hinrich Schuetze, Benjamin Roth

2. **The Role of Ambiguity in Error Prediction via Uncertainty Quantification**
   Poster session 1 · Ieva Raminta Staliunaite, James Bishop, Andreas Vlachos

3. **Confident in a Confidence Score: Investigating the Sensitivity of the Calibration of Confidence Scores to Supervised Fine-Tuning in Generation Tasks**
   Poster session 1 · Lorenzo Jaime Yu Flores, Cesare Spinoso-Di Piano, Jackie Chi Kit Cheung

4. **A Robust Evaluation of Probe Robustness: Lessons for Reliable OOD Uncertainty Quantification**
   Poster session 1 · Joe Stacey, Hadas Orgad, Kentaro Inui, Benjamin Heinzerling, Nafise Sadat Moosavi

Spotlight papers 🏆 (2/2)

5. **Overview of SHROOM-Visions 2026: A Shared Task on Hallucination Detection in Large Vision-Language Models**
   Poster session 2 · Raúl Vázquez, Aman Sinha, Chuyuan Li, Artem Shelmanov, Artem Vazhentsev, Claudio Savelli, Eduardo Calò, Emilio Raimond, Flavio Giobergia, Hengyu Luo, Jörg Tiedemann, Lorenzo Vaiani, Stella Frank, Vincent Segonne, Timothee Mickus
6. **Uncertainty Guardrails for LLM-Based Medical Diagnostic Systems**
   Poster session 2 · Gleb Kuzmin, Lyudmila Rvanova, Ilia Kopanichuk, Vladimir Makharev, Ivan Bakulin, Vladimir Shaposhnikov, Artem Oskin, Petr Anokhin, Aleksandr Nesterov, Artem Vazhentsev, Alexander Panchenko, Elena Tutubalina, Iaroslav Radionovich Bespalov, Dmitry V. Dylov, Artem Shelmanov, Ivan Oseledets
7. **Fortifying Hallucination Detection to Out-of-Domain Data**
   Poster session 2 · Ti Tze Hong, Saffron Salmah Yen Lim, Maarten Sap
8. **Paraphrase-Induced Retrieval Instability: Systematic Measurement and the Limits of Inference-Time Mitigation**
   Not presenting · Aravind Mandiga, Guoming Li, Jin Lu
9. **LLM Judges Agree With Each Other and Disagree With Human-Grounded Readability Metrics**
   Not presenting · Ajay Mandyam Rangarajan, Jeyashree Krishnan

SEE YOU NEXT YEAR

Workshop schedule

Thursday, 29 October 2026

Budapest local time (CET, UTC+1)

Morning

09:00–09:10	Opening remarks
09:10–09:50	**Keynote:** André Martins
09:50–10:30	**Keynote:** Dan Roth
10:30–10:55	*Coffee break*
10:55–11:25	Poster lightning round 1
11:25–12:30	In-person poster session 1
12:30–13:40	*Lunch break*

Afternoon

13:40–13:55	**SHROOM-Visions** shared task
13:55–14:25	Poster lightning round 2
14:25–15:30	In-person poster session 2
15:30–16:00	*Coffee break*
16:00–16:40	**Keynote:** Yingzhen Li
16:40–17:20	**Keynote:** Gintare Karolina Dziugaite
17:20–17:30	Closing remarks
17:30	*End*
